# Class Size 2003-04

---

## Introduction

Funding for class size reduction in the early elementary grades was initially established in 1999 through the Iowa Early Intervention Block Grant Program (House File 743). The class size reduction program promoted the goal of the reduction of average class size for kindergarten through third grade to 17 students per teacher for Iowa public schools. The program also allocated resources for early intervention efforts by school districts to achieve a higher level of student success in the basic skills and increase accountability regarding student performance. House File 743 allocated program funding through FY 2003. The Iowa legislature reauthorized funding for one year for FY 2004. Allocations for the last five years included:

- \$10 million in FY 2000
- \$20 million in FY 2001
- \$30 million in FY 2002
- \$30 million in FY 2003
- \$30 million in FY 2004

The U.S. Department of Education allocated federal funds to school districts for class size reduction through the Class Size Reduction Program. The goal of the Federal Class Size Reduction initiative is the reduction of early elementary grades to no more than 18 children per class and the promotion of professional development for teachers. Iowa public school districts received the following amounts:

- \$9.4 million in FY 2000
- \$10.2 million in FY 2001
- \$12.8 million in FY 2002
- \$20.7 million in FY 2003
- \$20.7 million in FY 2004

## Methodology

The Iowa Department of Education collects class size data from public school districts through the Basic Educational Data Survey (BEDS). Public school districts provide data on the number of kindergarten, first, second and third grade classrooms each fall. The number of students, teachers and aides are reported for each kindergarten through third grade homeroom classroom as well as combination classrooms. Combination classrooms include children from different grade levels in the same classroom, for example grades K-3 or grades 1-2. Average class size is calculated for each grade, kindergarten through third grade, and equals the number of students divided by the number of classrooms.

$$\text{Average Class Size} = \frac{\text{Number of Students}}{\text{Number of Classrooms}}$$

Special education classrooms and teachers were excluded from the average class size calculation, as were specialty teachers such as art, music, and physical education. Average class size for combination classrooms

was not included in this report.

## Limitations

Average class size is determined by the number of classroom sections for a particular grade level not the number of teachers in that grade level. Additional teachers in a classroom section will not lower the average class size for that grade level. For example a district with one 2<sup>nd</sup> grade classroom with 20 students and 1 teacher has the same average class size as a district with one 2<sup>nd</sup> grade classroom with 20 students and 2 teachers.

Funds received under the Iowa Early Intervention Block Grant Program may be spent on efforts other than hiring additional teachers. Funds may also be used to:

- provide additional support for students, including before and after school programs, tutoring, and intensive summer programs;
- acquire and administer diagnostic reading assessments;
- implement research-based instructional intervention programs for students needing additional support;
- implement all-day, everyday kindergarten programs; and
- provide classroom teachers with intensive training programs to improve reading instruction and professional development in best practices, including, but not limited to, training programs related to instruction to increase students' phonemic awareness, reading abilities and comprehension skills.

## Findings

Average class size increased slightly for all grade levels in 2003-2004 and reached its highest point in the past four years (see Table 1 and Figure 1). This was the second annual increase in the six years under review. First grade experienced the largest increase from 2002-2003 to 2003-2004 at 1.6 percent. Kindergarten and 2<sup>nd</sup> grade showed the smallest increase at 0.5 percent each from 2002-2003 to 2003-2004. All grades remained below their 1998-1999 level.

As in previous years, school districts in the smallest enrollment category (< 250 students) showed the lowest average class size for all grade levels, 10.8 in kindergarten, 12.2 in 1<sup>st</sup> grade, 11.6 in 2<sup>nd</sup> grade, and 12.8 in 3<sup>rd</sup> grade. The < 250 students enrollment category showed declines in average class size for all grades from 2002-2003 to 2003-2004 except 1<sup>st</sup> grade which increased from 11.1 to 12.2. In the 2003-2004 school year, there were 30 districts in the <250 students enrollment category.

As in previous years, average class size increased as enrollment category increased for 2003-2004. The 7,500+ enrollment category experienced the largest average class size for 1<sup>st</sup> and 3<sup>rd</sup> grade and the 2,500-7,499 enrollment category experienced the largest average class size for kindergarten and 2<sup>nd</sup> grade.

The gap between the largest and smallest districts increased for all grades from 1998-1999 to 2003-2004. For example, in the 1998-1999 school year the average class size for kindergarten was 66.9 percent larger for the 7,500+ enrollment category than the <250 category. By the 2003-2004 school year the gap for kindergarten increased to 88.0 percent.

The percentage of very large classrooms, above 30 students, decreased from 2002-2003 to 2003-2004 (see Table 7). For example, the percentage of 3<sup>rd</sup> grade classrooms with more than 30 students dropped from 0.3 to 0.1 percent from 2002-2003 to 2003-2004. The percent of classrooms over 17 students increased in 2003-2004 for all grades with 1<sup>st</sup> grade showing the largest increase at 5.3 percent. The 2003-2004 percentages remained below the 1998-1999 levels.

The change in average class size for kindergarten (-3.6 percentage) from 1998-1999 to 2003-2004 outpaced the decline in Basic Educational Data Survey (BEDS) kindergarten enrollment during the same period (see Tables 8 and 9). For all other grade levels, the decrease in BEDS enrollment was greater than the decrease in average class size. For example, third grade BEDS enrollment declined by 8.7 percent from 1998-1999 to 2003-2004 while average class size declined by 5.1 percent.

## Expenditures

Staff salaries and benefits consumed the largest portion of the Iowa Early Intervention Block Grant Program funds, combining for 96.8 percent. Supplies and equipment equaled 2.6 percent of expenditures in FY 2003 and less than 1.0 percent went to purchased services and other items (see Table 10 and Figure 2).

Table 10

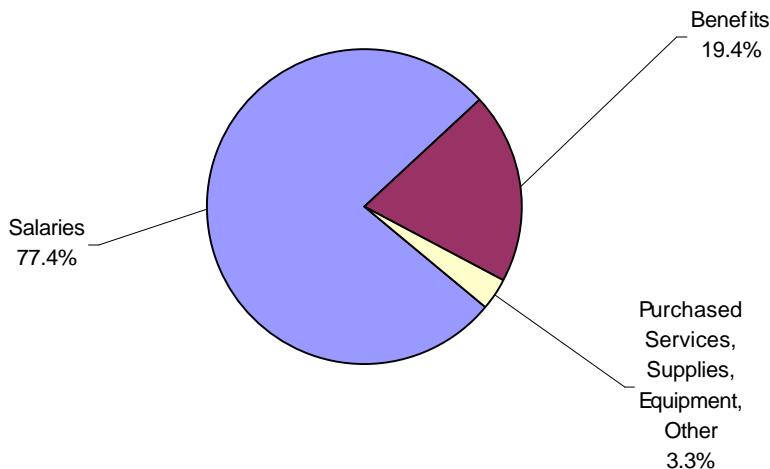

**FY03 IOWA EARLY INTERVENTION BLOCK GRANT PROGRAM  
FY03 EXPENDITURES BY OBJECT**

	<b>Expenditures</b>	<b>Percent</b>
Salaries	22,544,390	77.4
Employee Benefits	5,645,054	19.4
Purchased Services	74,893	0.3
Supplies	474,323	1.6
Equipment	278,601	1.0
Other	125,068	0.4
Total	29,142,329	100.0

Source: FY 2003 Certified Annual Report

Note: Totals may not add to 100.0 percent due to rounding.

Figure 2

Source: FY 2003 Certified Annual Report

Note: Totals may not add to 100.0 percent due to rounding.

Expenditures varied by the enrollment category of the districts. The largest enrollment categories, 2,500-7,499 and 7,500+, showed a higher percentage of expenditures going to employee benefits than smaller enrollment categories. The smallest enrollment category, <250, had a higher percentage of expenditures going to purchased services and supplies than larger enrollment categories.
